**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Status of the Application**

Claims 1-32 are pending in this action. Claims 1-32 are subject to an Election/Restriction requirement.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to a mixture of uncoated pellets, classified in class 424, subclass 489.
- II. Claims 23-26, drawn to a mixture of coated and uncoated pellets, classified in class 424, subclass 490+.
- III. Claims 27-32, drawn to a mixture of dual-coated pellets, classified in class 424, subclass 490+.

The inventions are distinct, each from the other because of the following reasons:

Each of the drug delivery combinations imparts a different rate of release based on the mechanism of delivery via a core release or coating degradation. The extended rates of release are capable of supporting separate patents within the art, based on their distinct structures.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the

Art Unit: 1615

inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

**Note:** If Applicant chooses to elect Group I (claims 1-22), then the following further election of species is required:

**Election of Species:**

This application contains claims directed to the following patentably distinct species:

**Election of Polymeric Binder:**

- (a) cellulose esters/ethers; hydroxypropylmethyl cellulose; hydroxypropyl cellulose
- (b) polyoxides
- (c) polyacrylates
- (d) polyalkylenes
- (e) polyvinyl pyrrolidone

The species are independent or distinct because they are comprised of distinctly categorized polymers, such as natural cellulose derivative polymers (HMPC), water-soluble polymers (PVP), acrylic acid polymers (polyacrylates) and the like.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Because the above restriction/election is complex, a telephone call to applicants to request an oral election was not made. See MPEP 812.01
